

## CONCEPT

The mission about creation of AXION Lite was to provide an easy, budget friendly, but high quality pneumatic tent to the market. A LITE model is an easy concept of four sealed inflatable legs nicely forming a roof with a place for four artworks to be printed by sublimation printing without color limits. Brand managers would surely appreciate the possibility to use different branded roofs with one structure, easily changeable by the zip-off technology. The zip-off cover, walls, visors and the entire inflatable structure can be printed in full color dye sublimation upon demand.
