

CONCEPT

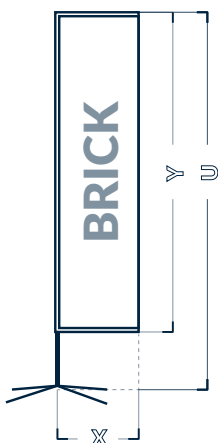

Available in three popular shapes. Do not forget to order beachflags to complete your event set. Our beachflags are available in three popular shapes as Wing, Drop or Brick. Each shape has three available sizes. For flags we are using high density FR rated tafetta fabric, which is printed by indirect sublimation method (paper transfer). Therefore our beachflags do not release a waste pigment in a first rain. Due to using high quality inks, the printing is shiny and well UV resistant. The fiberglass rods are in the best quality, crack resistant in high or cold temperatures. A bottom tension bar is available as a usefull accessory for those, wishing to get perfectly shaped beachflags. Different bottom ends are available for difeferent surfaces. You can choose a spike, steel plate or steel cross with a water balast bag.

	WING S	WING M	WING L
width "X" (cm/ft)	70/2'4"	70/2'4"	70/2'4"
height "Y" (cm/ft)	180/5'11"	275/9'0"	405/13'3"
height incl. pole "U" (cm/ft)	250/8'2"	360/11'10"	475/15'7"

	DROP S	DROP M	DROP L
width "X" (cm/ft)	80/2'7"	100/3'3"	125/4'1"
height "Y" (cm/ft)	190/6'3"	300/9'10"	370/12'2"
height incl. pole "U" (cm/ft)	240/7'10"	365/11'12"	450/14'9"

	BRICK S	BRICK M	BRICK L
width "X" (cm/ft)	70/2'4"	70/2'4"	70/2'4"
height "Y" (cm/ft)	175/5'9"	245/8'0"	370/12'2"
height incl. pole "U" (cm/ft)	210/6'11"	295/9'8"	420/13'9"

All information on the technical datasheet is for information purpose only. The final composition of the product depends on the current version of the product and the used components. Detailed scope of delivery is described in the official commercial offer.
